## EDUCATION

### University of Colorado Boulder

August 2019-May 2023

BS in Computer Science and Marketing, Minor in Creative Technology and Design

GPA: 3.6

## EXPERIENCE

### ATLAS Institute (University of Colorado), Boulder, CO

August 2022-Present

*Front End Development Learning Assistant*

- Teaching undergrad students HTML, CSS, JavaScript, visual design using Figma, and API integration.
- Leading recitations, holding office hours, grading assignments, responding to student emails in a timely manner.
- Tailoring explanations of complex topics to individual students, helping them problem solve and debug code.

### SurroundUs Services, Longmont, CO

June 2022-August 2022

*Analyst Intern*

- Composed a detailed report of solutions for pain points in customer communication channels.
- Learned VBA, wrote a custom Excel macro to streamline a large data cleaning project.

### Apocalypse, Boulder, CO

September 2021-March 2022

*Photographer and Floor Assistant*

- Brainstormed, planned, and casted creative fashion shoots to promote the brand on social media.
- Enhanced customer experience by providing attentive service.

### COLUMN Lab (University of Colorado), Boulder, CO

September 2021-November 2021

*Undergraduate Research Assistant*

- Conducted two live interviews each week with other Reddit focused graduate researchers to gather qualitative data.
- Analyzed large dataset of subreddits and their mutual users to draw conclusions about sense of virtual community on Reddit.

### United Chinese Americans, Washington, DC

May 2020-August 2020

*Content Production Intern*

- Researched and recorded interviews with influential figures in the Chinese American community.
- Published five video episodes to YouTube with interview footage about intersectional Chinese American experiences.

## PROJECTS

### Photoshoot Location Finder

March 2022

<https://devpost.com/software/photo-shoot-location-finder>

- First place winner in UI/UX at HackCU8.
- Used HTML/CSS/JS/Bootstrap to design and build a working prototype of a browsable photo gallery that links photos to their locations in Google Maps. Enables new photographers to easily connect their photographic vision to a tangible location.

### CoHabit Coworking

August 2022-December 2022

- Created an original product concept for a coworking space designed specifically for college students.
- Researched target market using Qualtrics survey and in person interviews. Refined product features accordingly.
- Compellingly communicated value of product concept to a large audience.

## LEADERSHIP

### On That Note Acapella

September 2019-Present

*Co-President*

- Writing 3 original vocal arrangements per semester.
- Directing weekly rehearsals and teaching vocal music at an intermediate level.
- Promoting group and recruiting members through social media channels and in person campus events.
